**Other Languages** (16 students taking Japanese 5 S4, 9 S5 & 2 S6; 14 students taking French 4 S4, 4 S5 & 6 S6) totally 30 students

- Most students reflected that the program provided them with a chance to learn a foreign language, which is believed to benefit their future studies and career.
- Most students were satisfied with the course, including tutors' qualification and venues, which were the major concerns in the previous year.
- S4 students performed much better in terms of assessments and attendance. This might be due to the stricter recruitment criteria and the easier syllabus. Such criteria would continue to be used in future recruitment.
- A relatively higher absent rate was reflected in S5 French course. Students reflected that the syllabus was much harder than that of S4, making it very difficult for them to catch up. Some of the students also reflected that it was hard for them to strike a balance between academic studies and the language course due to the heavier workload at school.

#### Attendance

- S4: 89% students achieve the 50% required attendance rate.
- S5: 85% students achieve the 50% required attendance rate.

Total: HK\$ 117,000

#### ApL

- For S4-S5 students, 2 S4 and 3 S5 students join the ApL courses. One student drops out the course and reflected that there would be too tight in her schedule for attending the courses on Sat. Their results are above average. Each of them covers from \$13,000-15,800.

Total: HK\$ 34,900
